ANZREG Seminar 2009 : <http://anzreg.monash.org/>

# DigiTool

Results of a discussion between ExLibris and IGeLU PWG:

- Need to detail the relationship between DigiTool and the Digital Preservation System (DPS). What does the release of DPS mean for DigiTool customers?
- Possibility of rewriting of DigiTool completely based on DPS. However the two products have also been described as the same products but with different plugins
- DigiTool 4.0 should include all features from 3.2. All existing customers should be able to upgrade to 4.0
- No new enhancement process because the current focus is on the new DigiTool
- Ex Libris teams working on DPS and DigiTool being brought together
- DigiTool Webinar to be rescheduled
- Discussion about getting a DPS customer to become part of the DigiTool PWG
- DigiTool PWG will be one of the focus groups used to help develop the new system
