Leganto Rollover at USC

ANZREG Webinar 24th October 2018 Lani Valentine and Meredith Mooi

Leganto Implementation at USC

- Pilot began Semester 1 2017
- 2018 almost 100 operational reading lists
- In 2019 plan a full rollout 650 Semester 1 courses
- Library systems staff currently working with IT to build an integration between Peoplesoft Enrolments (course data) and Alma to automate loading of course information.
- Still in planning stage to determine exactly how this will look

Course Loader settings

Active *	Active Inactive
Input File Path *	1
Delete associated reading lists when deleting a course	✓
When deleting associated reading lists, delete copyright records	
Add Instructor role to users	✓
Date format	dd/MM/yyyy

Overwrite instructors

Schedule Not scheduled	(_	Course Students
		Schedule	Not scheduled

Considerations

- File must be TXT (tab delimited) CSV did not read this may work now
- Cannot rollover a reading list if course already exists refer to published SF case 00610450
- Many row values must be in capitals e.g. (Operation) ROLLOVER
- Currently issues with Campus data refer to published SF case 00592189
- If considering multiple course association to one reading list, course rollover is not yet supported. (October release notes)

Thank you
