Subject: [anzreg-l] Real time primo user status - more info

Hi Guys

As a follow up to my presentation at ANZREG on real time stats in Primo

If you having (reports/javascript/any) queries about the real time reports/user stats in Primo please feel free to email the list and I'll answer any queries

If you want these types of real time reports but don't have any times/staff to do it you can email me at jjkelly@swin.edu.au or my personal email Justin@kelly.org.au and I'll provide a quick quote to set and code it up for you

Mixpanel offer free accounts come with 25,000 datapoints permonth (at Swinburne we use around 200-300,000 per month)

- But if you add a link to mixpanel in your primo/lib footer they bump the allotment up to 200,000 which should be enough for most libraries
- Refer <https://mixpanel.com/free/>

Below are a few screenshot of the reports we are getting out:
